

**CAPP Associates understands  
your Data Centre Challenges.**

**From resource constraints,  
business demands and  
increasing complexity.**

**The answer may  
be a Data Centre  
Optimization Strategy.**

**CONSOLIDATE**

**VIRTUALIZE**

**ENVIRONMENT  
MONITORING**

**RISK & SECURITY**

**DATA STORAGE**

**DATA CENTRE OPTIMIZATION**

Have you reached your data centre space and capacity limits? Are you evaluating the cost savings of consolidating or virtualizing your servers? Would a data centre security risk assessment give you peace of mind?

CAPP Associates understands these data centre challenges and how they can impact your growing business demands. Not only do we have the knowledge, tools and experience to transform your facility into a next-generation data centre, we have the capability to tie it all together.

## OUR TURN-KEY SOLUTIONS INCLUDE:

- Data centre assessment, planning & design
- Server consolidation & virtualization
- Data protection, storage, backup & recovery
- Optimized space, power & cooling
- Installation, migration & integration
- On-site hardware & application support
- Complete IT Lifecycle management
- Building interconnected & cross-platform environments

# CAPP Associates Provides a Full Range of Business-Enabling Data Centre Services.

## CONSOLIDATION

CAPP Associates' consolidation solutions transition existing servers into one location and combine applications and storage into a smaller number of more capable devices. You benefit from improved cost of ownership, reduced physical space, support costs and power consumption.

Integrate with CAPP Associates mission-critical, high availability and disaster recovery solutions for a truly optimized data centre environment.

## VIRTUALIZATION

Virtualization blends economies of scale with the efficiencies gained from shared systems. Based on your needs, CAPP Associates will assess your data centre, map out the transition to a virtual environment and track server accountabilities.

By separating workloads from hardware dependencies you will experience rapid deployment and fast workload assigning which saves you time and resources, reduces costs and improves your server performance.

## SECURITY & RISK ASSESSMENT

CAPP Associates in partnership with Informatica - Canada's premier security and privacy related solutions provider - bring you end-to-end data centre security and risk assessments solutions. We can implement IT security, physical security and administrative security solutions, as well as provide data centre audits and design company security policies. CAPP Associates best-of-breed solutions give you unparalleled protection and peace of mind.

## DATA STORAGE

Storage solutions safeguard your critical data and ensure constant availability.

CAPP Associates can optimize your storage with data protection, backup, restoration and disaster recovery solutions. You can expect improved utilization rates, increased security, simplified management and the ability to allocate resources for future growth.

2D TEMPERATURE PROFILE

## ENVIRONMENTAL MONITORING

CAPP Associates is pleased to introduce the EDX DC-3 Environmental Monitoring Solution. Track real-time, online information and historical trends critical to optimizing your power, temperature and humidity conditions. Pin-point areas of over-heating and over-cooling and devise the best strategies for your data centre growth and administration.

## STEFAN CORNELIU

### DATA CENTRE SOLUTIONS PRACTICE PRINCIPAL

*With more than 20 years of IT systems design and sales experience, Stefan Corneliu has developed a sharp eye for best-in-technology solutions that work. He is dedicated to customer success allowing companies to grow and stay strategically focused with technology.*

*Stefan's clients have ranged from large, national enterprises to small and medium size businesses. As a solution provider with an engineering and programming background along with a multitude of technical sales certifications, he brings a solid reputation for smart strategic thinking, reliability and integrity to each IT Infrastructure implementation.*

---

*"As our server consolidation, data backup, disaster recovery, and application projects became larger and more complex; we needed a trusted solution provider who had advanced skills in designing and executing data centre projects.*

*Stefan Corneliu and the team at CAPP Associates demonstrated their expertise and ability to adapt best practises to our projects. Our data centre can now adapt and perform to the realities of our business."*

**Marc Tomei, VP Computer Operations**  
**CDS Global - Canada, a Hearst Company**
